## FLEAS PERHAPS GUILTY

Medical Research Men in New York Hold That Opinion.

New York, Sept. 14.—That rat fleas are responsible for the spread of infantile paralysis is the cry advanced here by medical research men who have been experimenting to determine the carrier and transmitter of the disease according to an announcement tonight by Dr. Haven Emerson, city health commissioner.

The commissioner stated that experiments with almost all bugs and vermin had been abandoned as of no value, this idea having first been suggested by Dr. Mark Richardson, secretary of the Massachusetts department of health, who lost two of his children by the disease.

"The flea theory is based on careful observation," Dr. Emerson said, "but the suspicion has not yet been fully verified."

It was learned also that Professor C. T. Bruce of Harvard University, who studied the disease here for six weeks, is now on the flea transmission theory, so are surgeons of the United States public service and the Rockefeller Institute for Medical Research.

Commissioner Emerson, however, insists that the chance of spreading the disease from one person to another, is by far the greatest.

## Tuesday's Achievement.

On Tuesday, for the first time in her history, Vermont used the primary system for the nomination of her state officers. She never had better weather for a job of that sort, and a big vote was cast.

With no opposition save from the democracy, Horace F. Graham had the smoothest kind of sailing into the port of nomination, and Messrs. Bailey and Scott had the slightest trouble in securing renomination as secretary of state and treasurer, respectively.

Public interest in the outcome of the day's work, so far as the state ticket was concerned, centered around three offices—the United States senatorship, the lieutenant-governorship, and the auditorship.

As to the first, Senator Carroll S. Page gets the renomination by a large plurality, the easy-going and conservative habit of Vermont insuring to his benefit and refusing to disturb him in his occupancy of the junior senatorship at the national capital. He is to be congratulated on the way his friends have stood by him "through thick and thin" in the most liberal interpretation of that term. Certainly the campaign in his direction has been thick with interest. Ex-Governor Fletcher has put up a vigorous contest and made the gentleman from Hyde Park sit up and take notice, besides saving the people of the state something to think of along lines of constructive legislation and the desirability of effective service in both upper and lower branches of congress as well as at our own state capital. Governor Fletcher is a sturdy campaigner and an undimmed loser. Governor Gates is third in this senatorial race.

As to the second place on the ticket, the race between R. W. Hurlburt and

## TAKE IT IN TIME

Just as Scores of Bennington People Have.

Waiting doesn't pay. If you neglect kidney backache, urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills. Bennington citizens endorse them. George C. Woodward, stationary engineer, 214 School St., Bennington, says: "For twenty years, I was a locomotive engineer and this work affected my kidneys. I suffered from dull, heavy pains in the small of my back. When I got up in the morning, I was so lame and stiff that I could not stoop. The kidney secretions were at so annoying, particularly at night. I heard a great deal about Doan's Kidney Pills and procured a supply at Cole's Drug Store. Although other remedies had failed to help me, Doan's Kidney Pills brought prompt and effective relief. I now have no backache and my kidneys are normal."

OVER FIVE YEARS LATER, Mr. Woodward said: "This Cure Doan's Kidney Pills made in my case was permanent. I will always recommend them when an opportunity occurs." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Woodward has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

## TO THE PUBLIC!

In view of the serious effects of having any cases of Infantile Paralysis in Bennington it seems important that a more rigid quarantine should be established. At present there are no funds available for the Health Officer, either from the State or the Town, for this purpose. A small sum was given him by individuals, and temporarily there is an inspection of all trolley and New York point cars and trains from Massachusetts. If this is to be continued, there being no public funds available, money must be raised by private subscription. Checks may be sent to the Bennington County Improvement Association, to the order of the Association, or money may be left at the Bennington County National Bank for this purpose.
